## CUSTOMS CLEARANCE

Customs brokerage is a profession that involves the 'clearing' of goods through customs barriers for importers and exporters (usually businesses). This involves the preparation of documents and/or electronic submissions, the calculation (and usually the payment) on behalf of the client of taxes, duties and excises, and facilitating communication between the importer/exporter and governmental authorities. Custom brokers may be employed by or affiliated with freight forwarders, but may be independent businesses or may be employed by shipping lines, importers, exporters, trade authorities and customs brokerage firms.
